MEMORANDUM

TO: Paperstack International Employee
FROM: The Management
RE: Souja Boy Videos on Company Time

We would like to bring to your attention the report filed by our IT department regarding the recent outages of the corporate interweb. The investigation revealed that 58% of our allotted bandwidth is presently being consumed by streaming downloads of various "Soulja Boy" videos from the interweb domain <http://www.YouTube.com>. While this activity is not copyright infringing, gross misuse of billable time is a violation of our code of ethics (section 749b).

The management of Paperstack International asks you to cease and desist. Continued viewing of "Soulja Boy" interweb videos will be tracked by IT and will be sufficient grounds for suspension.
